

MUSTC222 / Week Four Homework

Check out the CD-ROM labeled *MUSTC222 – Mic Comparison* from the studio office. Using one of the studios, an available cart, or a station in 814, load the contents of the CD to the hard-drive.

Open the Pro Tools sessions, listen to the Snare and Kick tracks and notice the differences between the microphones. **Write a 1-2 page** analysis containing the following:

1. A comparison of the microphones in terms of tone (frequency content).
2. A comparison of how much room sound the mics capture, keeping in mind that they are all roughly the same distance from the drums.
3. Anything else you noticed.

Your response must be submitted online using Ohsi (www.revolvercreative.com/ohsi) before the beginning of class, Week 5.
